

Priya met Kira through a Facebook group and they have been communicating regularly since.

Out of curiosity Priya asked Kira if she was doing coding at school. (That was before Kira found out about the app and did not enjoy coding herself. <sup>and was looking for help which Kira could not help her with.</sup>)

Kira quickly became familiar with Hach-cess and pointed Priya to ~~the website~~ <sup>Hach-cess</sup> or their Facebook page and details on how to download the app. Most important was that the app offered on the fly language switch between ~~Nepali~~ <sup>Nepali</sup> and English. (would be a really nice feature to have) Priya downloaded the app and was delighted at how simple and fun it was and the overall theme of the app made her feel right at home. Because the app offered on the fly language switch, she now understands coding terms straightaway.
