

James

- 45 years old male.
- Computing teacher at a girl's school.
- Been teaching the subject for years ~~was~~
~~resistant to stop to use the old~~
~~teaching method although~~

~~the progress was~~

- Not too happy with the traditional teaching method. Feels like something could be implemented to make young girls feel more passionate about the subject/give them alternate but creative ways to learn.

Coding.

- Received feedback ^{and he does a good job at teaching,} from some students ^{white lessons were informative,} who think that ^{like} they got bored quickly ^{claimed} and that they would ~~prefer learning~~ ~~through white lessons~~ to be able to learn some of the material at their own pace through an interactive platform.

^{and Mich} James ^{by students, parents and the head teacher himself} was praised for bringing up the idea and because of their action, the pass rates for the students went up and now Hack-Cess is a fundamental part of the teaching program. *
